"For the Encouragement of the Useful Arts."

This morning the Fourth Annual Fair of the Nevada State A. M. & M. Hall. Society opened under the most favorable circumstances. An institution which in 1874 had nothing but hopes and plans, to-day inaugurates its Fourth Annual Exhibition upon its own grounds, and claims a good attendance by virtue of its name and fame for liberality. The plow and harrow have been at work, the seed has been sown and fallen upon good ground. Beautiful shade trees have now supplanted the sagebrush, and ample buildings and improvements stand where there was not even a prospect of production. The enterprise and persistence of a few men and the and persistence of a few men and the later generous support of Storey and other counties, in this State and California, have made it possible for us to build a home for the useful arts in Ne vada, and when we consider the nature of Nevada's dependence upon Califor-nia, and her lack of public institu-turned last year. There are 5,400 acres of land inclosed, of which 769 are cultivated. There are 7,437 fruit tions, one can realize the difficulty of trees in successful growth, and 1,150 this undertaking.

And now that Nevada has an Agriing her resources, it should be matter of common pride and solicitude that this means be improved. The agriculture of this State is entirely different from that of other sections and therefore requires study and comparison. The occupation of mining is complex in the extreme and must secure working capital through exhibition of its wealth. Our undeveloped resources can only be brought in demand by a comparison of experiments, and this justifies us in saying that we have a valuable possession in this Society. If we can induce the farmer to discard primitive methods, kill off his scrub stock, improve his house and increase the fertility of his soil, we are doing a good work. If we can encourage the miner to exhibit his ores and subject them to intelligent inspection and experiment, we shall secure him working capital or prevent many losing experiments. And above all, if a yearly exhibition will wake Nevada to an appreciation of her own wealth, and create that fruitful competition which makes men strive to be first in the race for honors, we shall some day receive visitors, not in a wilderness, but in the midst of prosperous and productive communities, made up of permanent and comfortable homes.

For these reasons and many others akin to them, we urge that the N. S. A. M. & M. Society is the property of this State, provided and offered for the improvement of every section. The tree has been planted and well cared for; has survived the dangers of youth, and is now nearing the season of fruit and harvest. If we appreciate it properly it will shadow and protect each one of our industries, and the fruits of generous competition shall be increased prosperity and happiness for every honest toiler in the

At the Democratic Congressional caucus held in Washington Saturday evening, S. J. Randall of Pennsylvania was nominated for speaker, Geo. M. Adams for clerk, James M. Stewart of Virginia for postmaster, John W. Polk of Missouri for doorkeeper, and Rev. Dr Poisel of the Southern Methodist Episcopal Church for chaplain of the house of representatives.

Wiggington of California evidently thinks that fortune favors the contestant. He will argue the question with Pacheco, as to that seat in Congress. We are afraid that Wiggington will not succeed.

And now they say that Gilinan, the New York forger is a nephew of Henry Ward Beecher. We knew that some means would be provided

for his escape. The French elections occurred yesterday, and Marshal MacMahon will

probably have "to resign or submit." The Russians and Turks have each

200,000 soldiers in the field. Pirrepoint, U. S. minister to Eng-

land, has tendered his resignation.

The Secretary of War will ask for \$31,282,000 for army expenses.

The new trade dollar is making its appearance and is as bright and shining as the present glorious October weather. It is pleasant to handle after so many years of fumbling with a fil-thy rag. It contains 420 grains standard metal, and will be at two per cent premium when the dollar of the daddies is restored. It glitters like the visible planets on a clear night, and it has an honest ring—a novelty in New York. It feels in one's fingers as if we had once more a solid, substantial currency which would bear inflation without explosion. We welcome the new trade dollar in the retail trade, and extend to it a hearty invitation to drop in often .- N. Y. Graphic.

The Princess Mercedes, to whom the King of Spain is paying court, exacts from her admirer all the little attentions that the belles of Seville and Granada are accustomed to. At the Track---First Day.

There was quite a large attendance at the track to-day, a large increase over the first day's attendance last year was noticeable, especially in the number of vehicles arranged along the quarter stretch.

In the Ballinette Stake T. G. Moore's Madge Duke alone put in an appear- almonds. ance and galloped for her entrance.

In the mile dash April Fool, Mary Tompkins and Rafael came to time, and sold about in the order named before the race; however each horse named was favorite in turn.

The horses were called promptly and pool selling was rather slow, owing to the doubtful nature of the pools. The colors were as follows: Mary Tompkins, red cap, blue sash; April Fool, yellow; Rafael, red cap, blue jacket. After considerable delay, scoring three times, the horses got off with fair start. The dash was well contested between April Fool and Rafael around the back stretch but on the home stretch April Fool drew ahead and came in an easy winner, time 1:48. Rafael second, Mary Thompkins third.

The horses were then called for the mile and repeat race as follows: SECOND BACE.

Mile and repeat; purse, \$250. Substituted for two mile dash. First horse, \$75; 2d horse, \$50.

Entries: T. B. Stuart's Sooner T. B. Winston's Rafael and - Smith.

The Judges for the day were Chamberlain, Babcock and Batterman. Timers, Joe Stewart, T. Buckner.

Jottings.

Rev. Drahms preached an excellent sermon last evening at the Congregational Church. The audience, considering that the evening was chilly, was large. He is a clear thinker, his diction is chaste, but his intonation and jestures are at times defective.

SO EXTENSIVELY WORN IN PARIS, was first discovered in 1870, by the celebrated French chemist, Mons. D. Bo Dainge, brated French chemist, Mons. D. Be Dainge, who manufactured it into jewelry, and for five years sold it to the leading jewelers of Paris for Solid Gold. In 1875, when his secret became known, ten of the manufacturing jewelers established a stock company, with a capital of \$10,000,000 for the purpose of manufacturing Romaine Gold Jewelry and Watches. With this immense capital and the aid of improved machinery, they are enabled to produce all the latest patterns of jewelry at less than one-tenth the cost of solid gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.
